

MEDICAL EXCHANGE & DISCOVERY (MED)

August 5-25, 2018

viaprograms.org/med

Explore cultural, social, and educational perspectives on the American healthcare system!

Program Overview

All Participants

- Study clinical English
- Examine approaches to health care and medical education at Stanford University and in San Francisco
- Explore issues of medical ethics from multi-cultural perspectives
- Learn how health care systems are adapting to provide care for LGBTQ communities

Novice Track

1st-2nd Year

Case studies and simulation learning in surgery training, VR, and patient care

Advanced Track

3rd-6th Year

Advanced case studies and physician shadowing
